

# Universal Seed Tray Model #UN

## The Ultimate Pole System **#11**

- Large 13" platform – great for ground feeding birds!
- UV-stabilized polycarbonate to protect against the sun's damaging rays

**Two ways to use the Universal Seed Tray:**

- Mounts onto a 1" diameter pole, alone or as a seed catcher for a feeder mounted above.
- Attaches directly to Droll Yankees B-72 and B-7F feeders, with a B-Tray Connector (#BC).

**To mount on pole, tighten the included Complete Clamp (#17 CC1) screw against the pole and rest the tray on top of the clamp.**

**Visit [www.drolleyankees.com](http://www.drolleyankees.com) for over 20 different products in the Ultimate Pole System.**
